Software Development:

- Full-stack development
- RESTful API design and implementation
- Version control systems (e.g., Git)

Database Management:

- MongoDB (including CRUD operations)
- SQL basics

Tools and Technologies:

- Visual Studio Code or preferred IDE
- npm (Node Package Manager)
- Git/GitHub

SOFT SKILLS

- Adaptability
- Communication
- Teamwork
- Time Management
- Continuous Learning

EDUCATION

Aravali International School,
2008-2021

High School Diploma
95% aggregate

ACHIEVEMENTS

- 2-time abacus silver medallist in SEMAS academy.
- Grabbed 2nd position in web application making competition.
- Being a scholar badge holder 5 times consecutively in school.

SOME PROJECTS

Service Booking Website

- Developed a website to make the process of booking hotel and flights. Html, CSS is used to create a user-friendly interface.
- Applied JavaScript for to make it responsive and to add animations.

Twitter-Clone

- A Twitter clone from scratch using HTML, CSS, and JavaScript, offering a user-friendly social media platform.
- Implemented comprehensive CRUD (Create, Read, Update, Delete) operations, allowing users to post, view, edit, and delete tweets, providing a complete user experience.

TODO List

- Designed a note taking application to improve personal productivity and work efficiency.
- Used react and next.js to create a responsive and intuitive interface.
- Implemented features like search task, search task using voice, Sort task by Due Date and Category and many more.

The Little Movie Company

- Built a dynamic movie library website using React for responsive search, browsing, and display of film data and leveraged the TMDB API to curate a vast content library.
- Enhanced user experience with sleek CSS styling, interactive search filters, and intuitive navigation, ensuring effortless exploration of the movie database.
- Demonstrated proficiency in full-stack development by mastering HTML, CSS, JavaScript, and React, including API integration and data rendering.

EXPERIENCES

- Executive member of the Entrepreneurship club the organization of four impactful start-up related events at ECELL, attracting 150+ attendees and fostering entrepreneurial spirit among many students.
- Collaborated effectively with diverse stakeholders, including university faculty, local businesses, and guest speakers, to curate valuable entrepreneurial experiences.

INTERESTS

- From documentaries to thought-provoking films, I enjoy immersing myself in stories that expand my understanding of the world.
- Encyclopaedias hold a special place in my heart, offering endless avenues to explore diverse subjects and delve into the unknown.
